

Atomic Learning

Web Based Software Tutorials and Support

CLICK. SEE. HEAR. LEARN.

Atomic Learning – www.atomicLearning.com – provides web-based software training for dozens of applications you use everyday. It is supplement learning that educators, students, and their families can use to improve their knowledge and performance. Atomic Learning delivers a library of short, easy to view and understand tutorial movies, leaving teachers more time to do what they do best – explain concepts.

What you get with every subscription:

- Web-based software training available 24/7
- More than 3000 tutorial movies on more than 35 most common software applications
- An average of 100 new tutorials every month
- Available to educators, students and families
- AI's Weekly Tech Tips email answering common questions people have when learning software
- Regular e-letters filled with the latest updates, reminders and helpful hints
- Home access – so you can share Atomic Learning with family members
- Customer support via telephone and email
- User tracking that displays which tutorials have been accessed by user-name and usage levels by IP addresses/ranges

We can also provide you with on-site training in Atomic Learning's unique method of movie creation. The skills learned in this training session can be used to create your own tutorials to educate your staff and students on district specific information – such as logging on to your network, or how to use district administrative software. Included is a custom interface for hosting your movies alongside the Atomic Learning tutorials.
