

## 'Shambles' in S.E.Asia

Several internet domain names will take you to this website, the most common used is:

<http://www.shambles.net>

There are others including:

<http://www.TEPAonline.net>

*Choose the one you think will be easier to remember.*

'Shambles' has been built with the benefit and experience of having worked with many teachers, mainly in international schools

'Shambles' does offer "preferred solutions" e.g. ...

- setting up a website [learning connections]
- personal email [learning connections]
- establish an e-learning platform [netdimensions]
- linking staff, students and parents [schoolnotices.info]
- school supplies [ISPO]
- database of schools worldwide [ISC]
- promotional items [shambles own shop]

... but just as importantly we try and stay objective and also list alternatives for you to choose from.

The needs of families considering a move to S.E.Asia have been particularly high when building 'Shambles'

'Shambles' is also designed to be '*students safe*', the links to external websites [over 20,000] are all checked before adding to our own searchable database. But because of the changing nature of this technology the content of external sites cannot be guaranteed. The 'Shambles' image search engine [picsearch] has compulsory filtering and the external search engine [vivisimo] has filtering options. There is an area on 'Shambles' specifically devoted to providing advice on the use of the internet.

'Shambles' has high relevance to education because of feedback, especially from members of the international schools' communities. It is hoped that you can also offer recommendations and add to that feedback.

**'Shambles' will always be a "Work in Progress"**

*To better appreciate how much is available to you - load up your "browser" and start clicking.*

*- It's out there somewhere -  
- the trick is finding it -*

THE  
Education Project  
ASIA

'The Education Project Asia' (TEPA) is a consultancy established in 2002 with the aim of offering support to the international schools in seventeen countries and regions in South East Asia ...

Brunei	Myanmar	Cambodia	China	Hong Kong	
India	Indonesia	Japan	Laos	Macau	Malaysia
Philippines	Singapore	South Korea	Taiwan		
Thailand	Vietnam				

... students, parents and family members, teachers, support staff, principals and managers.

The consultancy was established by Chris Smith who trained as a teacher in the U.K. and taught in Jamaica and England. From 1978 to 2002 he was employed by The English Schools Foundation (Hong Kong) initially as a teacher but then, in 1985, moving into a central support position. He was the Head of the J.C.Sarah Roe Centre, a professional development centre supporting over 600 teachers in the ESF. In 1998 he also took on the responsibility of ICT Advisor for the Foundation.

One of the first projects for TEPA is a website which is introduced here ...

Chris is based in Chiangmai, Northern Thailand, and hopes to add to the range of opportunities and resources already available to International Schools and families in this part of the world.

*S.E.Asia is a very special place -  
and it's the people that make it so.*
